## **Extra-Curricular Activities Program**

As part of the SEK commitment to develop the unique passions, talents and competencies of our students, and as part of our holistic approach to the intellectual, social and physical development of students, we offer a diverse range of extra-curricular activities.

Sports, the Arts, Technology and Community Service are an essential aspect of our education model, and also play a key role in the health and wellbeing of our students. Our activities cover all these areas, plus other academic support areas, such as science and languages.

We offer extra-curricular activities four days a week, with a broad range of internal and external choices that will change each term.

All of these activities are optional and may involve an additional fee because they are conducted outside the normal school day. NON-SEK students are permitted to join but will be charged a fee for all activities. These activities are subject to change or closure, based on a minimum viable enrollment.

Please note that each activity may have a supply list that students will need in order to participate in the class. This is a personal expense and is not covered by the school.

## Extra-Curricular Classes - Online (during distance learning)
